## Customer Reviews

My aunt bought a crock pot and been looking for this cookbook for a while. I sent it to her as gift. My  
aunt called me and said that she loves the book, there are over 1000 recipes inside this book and a  
must-try using the crock pot. Most of the recipes take about 3-4 hours cooking so I guess we'll all  
need to be patient and wait for that delicious food to be served. She sent us her version of Chicken

Parmesan Soup from this book and yes, it was really delicious because of the tenderness and flavor of the chicken. This book is fully loaded!

I love cooking like this, it is so easy and convenient. The problem is in coming up with new recipes that you haven't tried before otherwise it can get a bit boring. This book is great as it gives you so many different recipes to try and the beauty is that they are all really tasty. The author certainly knows his stuff as they are written in a very straightforward manner and are simple to follow. We have only had this book a short while but have really enjoyed the meals. Can't wait to work our way through the rest of them.

There are some great recipes here - many, and it seems like there's enough to last a lifetime. My only criticisms are that the book should be more organized by category, meat types, desserts, entrees, etc. also I would suggest photos of the finished products. But I can recommend this book based on the plethora of tasty, convenient recipes.
