The Little Bulbs: A Tale Of Two Gardens

Synopsis

â œA beautifully written book.â •â "The Garden Journalâ œA few garden writers offer prose that goes beyond how to spade and spray to convey the experience and pleasures of gardening. The late Elizabeth Lawrence was such a writer.â •â "Southern Livingâ œFirst published in 1957 and out-of-print for many years, this is a delightfully written and enormously informative introduction to the fascinating variety of little bulbs available to the gardener. The author discusses a wide variety of plants, both familiar and little-known, including crocuses, species daffodils, hardy cyclamen and lily-family members such as Brodiaea, Bessera, and Calochortus.â •â "American Horticulturist

Book Information

Hardcover: 248 pages

Publisher: Criterion Books; 1st edition (1957)

Customer Reviews

Don't be put off by the fact this book was written a few years ago, it's still quite newsworthy. I've been gardening for many years -- everything from a two-acre spread to a small urban garden but I never had to "think small" until I moved to the big city. This book has proved very helpful for resizing thoughts. In "The Little Bulbs," Miss Lawrence covers everything from miniature daffodils to squill, from crocuses to irises. Did you know there were miniature irises? Most if not all of the bulbs she describes are still around, and many more varieties exist besides, but this book will get you started and keep you going awhile. I haven't found anything newer with better practical knowledge. Even if you own an estate, this book can help you. Miss Lawrence has a nice section on container planting which the British have done for years, and we are just beginning to do really well. Remember, bulbs exist for every climate. You can grow the tropical kind in-doors in colder areas (amaryllids), and grow those that require cold outside if you have freezing weather in winter. I like this book so much, I am ordered the hardcover to replace my old paperback which I'm giving to my daughter who is just

beginning to garden.

Elizabeth Lawrence is such a joy to read. Don't let this one pass you by.
