Customer Reviews

This book offers up a great variety of different types of foods that you can make with a good variety of ingredients. Of all the ones that I have tried from this book, I haven't found one that was hard to do and all of them were simply amazing. I love how easy it is to read this book and storing it is a breeze. I know that a lot of people have gotten away from actual cookbooks in favor of online versions, but this is truly one of those books that can and should be passed down among generations for great meals! I love it

we have LOVED every recipe we have tried so far and my mother who has the same experience. the recipes are simple, healthy and delicious.. i have never roasted a chicken in my life, but have made the one in here twice with great success.HIGHLY RECOMMENDED!!!

In case you are looking for a organic food cookbook that is practical and easy to prepare, then look no further. I have switched my eating from processed foods to organic foods. I find great value in the cookbook. This book has everything, and most ingredients are easy to find at the local co-op.

Wow, I love all the information and valuable recipes for a more healthy life.
