Hands-On Novell NetWare 6.0/6.5, Enhanced Edition

Synopsis

Hands-On Novell Netware 6.0/6.5 prepares students for the real-world challenges of setting up, managing, and securing a Netware 6.0/6.5 network by interweaving conceptual discussions with hands-on activities and case projects. Students can see how all components work together to build a functioning network system. Novell's network operating system, Netware 6.0/6.5, offers the OneNet strategy to simplify network management and to enhance access to resources and services across both LANs and the Internet. This text also gives students a thorough grounding in concepts and skills to prepare for the Certified Novell Administrator (CNA) exam.

Customer Reviews

Smelled like smoke and has weird colored stains on some pages but other than that it is in good condition and it was super cheap so I can't complain. Smoke smell is gone after a day ;)

Bought this book for novell class. Great teachings, hard to read but if you go through the tests, it will help you out a lot!

i had 2-3 day expedite promised. The book took 4 days. but condition of book and disc was fantastic

good
