Customer Reviews

An outstanding & utterly professional ID book on tropical flowers and plants. Well researched and written. The photographs are beautiful & truly amazing. The 2007 Silver Medal for Regional Non Fiction awarded by IPPY in New York is well deserved.

It helps to identify almost all of the plants and flowers around me here in Naples, Florida! It's expensive, but the photos are great, and is very educational to me. With the help of this book, I feel like a "native" now being able to name all vegetation near where I live!

I got this as a present for my Dad at his request. The book is well written and well laid out. Its full of information and lots of lovely coloured photographs. Its a bit pricey but for the true flower/garden enthusiast, they will definitely appreciate its content.
